THE JOURNEY

From Tehran to the world.

VAHIDJ began his musical journey at the age of 17, driven by a passion for sound, creativity and unforgettable musical experiences. Starting with an open-format approach, he explored different musical styles and developed the ability to connect with diverse audiences through performance.

His professional career took a defining step forward on Kish Island, where he began performing on stage and building his identity as an artist. Throughout his career, he also performed as a warm-up and electronic act alongside major Persian pop and rap concerts, strengthening his versatility and stage instinct.

Over time, his artistic direction evolved toward Tech House and electronic music, focusing on immersive, atmospheric and high-energy experiences. His sound combines years of open-format experience with modern electronic influences.

KISHIZA

A project. An experience.

In 2018, VAHIDJ founded and launched KISHIZA at Abanmae Musical Hall, Persian Gulf Complex, Kish Island. The electronic music project and event concept created a major live experience and a new event format in the region.
